

FeedOS Developer Notice

Enhancement on LIFFE

Notice Reference	20110211
Scope	All LIFFE instruments
Exchanges	LIFFE
Effective Date	2011-02-14
Impact	Quotation Data

Dear FeedOS developer,

Please be advised that starting the 2011-02-14, the following enhancement will be available on the LIFFE XDP feed:

On the quotation tag MARKET_LIFFE_MarketMode (14650, **type: string**), the type will be changed from uint32 to String, it will contain a string of integer values

Example:

Before:

For a close event we used to receive the following values within multiple MARKET_LIFFE_MarketMode tags:

```
MARKET_LIFFE_MarketMode=32    MARKET_LIFFE_MarketMode=10
MARKET_LIFFE_MarketMode=1     MARKET_LIFFE_MarketMode=23
MARKET_LIFFE_MarketMode=4     MARKET_LIFFE_MarketMode=42
MARKET_LIFFE_MarketMode=14
```

After:

For a close event we will receive the same values in a MARKET_LIFFE_MarketMode tag:

```
MARKET_LIFFE_MarketMode="32 10 1 23 4 42 14"
```
