

## FeedOS Developer Notice

### Enhancement on Nasdaq UTP

<b>Notice Reference</b>	20110222
<b>Scope</b>	Quotation Data
<b>Exchanges</b>	Nasdaq UTP
<b>Effective Date</b>	2011-02-28
<b>Impact</b>	Level1 Data

Dear FeedOS developer,

Please be advised that starting the 2011-02-28, the following quotation tag will be disseminated in the Level 1 data

RegSHOAction (9113, type: Enum) will indicate the short sale price restriction, it can have the following values:

Value	Description
1	No short sale price restriction
2	Short sale price restriction in progress
3	Short sale price restriction remains in effect for a second business day

This tag will be sent among "OtherValues" in the callback carrying Level1 event: `notif_TradeEventExt()`  
if it is not present it indicates no short sale price restriction
