Dear FeedOS developer,

Please be advised that starting the 2011-02-28, the following quotation tag will be disseminated in the Level 1 data

RegSHOAction (9113, type: Enum) will indicate the short sale price restriction, it can have the following values:

| Value | Description |
|---|---|
| 1 | No short sale price restriction |
| 2 | Short sale price restriction in progress |
| 3 | Short sale price restriction remains in effect for a second business day |

This tag will be sent among "OtherValues" in the callback carrying Level1
event: notif_TradeEventExt()
if it is not present it indicates no short sale price restriction
